### STRUCTURE

- PET / FOIL / PE
- BOPP / PAPER / FOIL / PE
- PET / FOIL / PET / PE

## PRINTING CAPACITY

We are Having Lotus Make Roto Gravure Machine with 200 MPM printing speed. Lotus Mechanical Pvt. Ltd. is Delhi based & it is world known manufacturer of rotogravure presses for publication, packaging and specialties printing, converting equipment, and lamination machines for flexible packaging material. With its production sites in Ahmadabad, one R&D Centre and one Software Design Centre, as well as a capillary network of Service centers, Lotus is a pan India esteemed Group, synonym of quality and reliability. They have recent expansion to serve more large scale machine manufacturing process, so we have full support in terms of service & maintenance from them also.

### FEATURES

- ✓ Capability of 8 color printing with ARC-Auto registration control
- ✓ Printing capacity from 400 mm to 1050 mm.

### APPLICATIONS

We can print all substrates as following in both surface & reverse Polyester, Bopp, CPP, PVC, Paper, FOIL, Metalized Films, Poly etc.

### PRODUCTION CAPACITY

We can Print monthly 5.4 mln sqm.

## LAMINATION CAPACITY

We are having Lotus make dry Lamination type Machine with 200 MPM Lamination Speed. Our lamination machine for flexible packaging offers the best and most innovative technology available. We also engineer our systems to be cost-effective and efficient.

### FEATURES

- ✓ Capability of Adhesive coating 2 GSM to 6 GSM.
- ✓ Lamination capacity from 400 mm to 1050 mm.

### APPLICATIONS

We can laminate all substrates as following  
Polyester, Bopp, CPP, PVC, Paper, FOIL, Metalized Films, Poly etc.

### PRODUCTION CAPACITY

We can Laminate monthly 5.4 mln sqm.

## LAMINATION CAPACITY

We are having LMPL make Solvent Less Lamination Machine with 400 MPM Lamination Speed. Our lamination machine for flexible packaging offers the best and most innovative technology available. We also engineer our systems to be cost-effective and efficient.

### FEATURES

- ✓ Solvent Free Lamination
- ✓ Capability of Adhesive coating 0.5 GSM to 2.5 GSM.
- ✓ Lamination capacity from 400 mm to 1350 mm.

### APPLICATIONS

We can laminate all substrates as following  
Polyester, Bopp, CPP, PVC, Paper, FOIL, Metalized Films, Poly etc.

### PRODUCTION CAPACITY

We can Laminate monthly 10.8 mln sqm.

## SLITTING CAPACITY

We are having Lotus made Slitting machine with 350 MPM speed and E+L made Edge guide system which makes it best in class slitter with excellent productivity & quality providing capability.

### FEATURES

- ✓ Capability of 12.5 GSM to 375 GSM cutting.
- ✓ Coil width capacity from 30 mm to 1050 mm.

### APPLICATIONS

We can slit all substrates as following  
Polyester, Bopp, CPP, PVC, Paper, FOIL, Metalized Films, Poly etc.  
As well as laminated materials in any combination from 30 GSM to 375 GSM.

### PRODUCTION CAPACITY

We can Produce monthly 10 mln sqm.

## POUCHING CAPACITY

We are having SVPM made pouching machine with maximum production capacity of 180 Pouches per Minute.

### FEATURES

- ✓ Capability of 12.5 GSM to 375 GSM Pouch making.
- ✓ Pouch width capacity from 30 mm to 1050 mm.
- ✓ Pouch length capacity from 30 mm to 800 mm.

### APPLICATIONS

We can produce all type of Pouching Bags as following  
Centre Seal Pillow Pouch, Three Side Seal Pouch, Side Seal Pouch,  
Gusseted Pouch, etc.

### PRODUCTION CAPACITY

We can Produce monthly 90 mln Pouches.

## QUALITY CONTROL LAB & R&D CENTRE

We are having STPL made Testing Equipment with latest features and software for Production testing, Raw material testing as well as new product development trial – analysis facilities for custom made packaging solution particularly suitable for your in-feed product.

### FEATURES

- ✓ State of Art separate Laboratory facility.
- ✓ Educated staff for Lab ( Min - CPET / Msc Material Science)
- ✓ Automated testing equipment to avoid human error.
